Spring/summer issue October 2008 \$9.95

## VICTORIAN LANDSCAPE AWARDS 2008

presented by

**ANSTON**  
PAVING STONES

Residential Landscape Construction - up to \$50,000

**WINNER:** RB Landscapes, for the Wheelers Hill project

## Judges' comments

This outstanding garden has a strong design theme and contains a variety of unusual hard landscape materials and plant stock. These three elements have been sensitively used in the landscape, linking it with surrounding buildings and wider landscape through colour and structure. The garden highlights what can be achieved in an average suburban block with a modest budget. Creativity, good design and construction are not necessarily restricted by money.

Highly Commended: **Garden Living Space**, for the Camberwell project

Commended: **Domain Pools and Landscapes**, for the Kew project; **Live In Landscape**, for the Armadale project
